## Elementary's gifted visit museum's Muppet Show

Students in the REEL Program for gifted young people in grades one through five at Waveland Elementary recently attended "The Muppet Show" exhibition at the Delgado Museum in New Orleans. Parents and pre-school brothers and sisters of the students were included in this first group activity. Screening and individualized diagnostic assessments identified this group of students during the first nine weeks of this school year. Mrs. Patricia Box-Pope, a master's degree certified teacher of the gifted, will instruct in this new resource program. Under the direction of James D. Barks, principal, and Dr. Brenda Scarfil, supervisor of special education, Mrs. Box-Pope has begun a program of gifted students throughout the year. Through this program, students are given special events directly related to learning activities that have been purchased. By providing a program for the gifted student, the special education program offered by the District is now serving exceptional students at the elementary level. The primary intent of this program is to assist a special group of young people reach school year in addition to the Educational Excellence in Learning.

## Bergeron Marine barge destined for Trinidad

Bergeron Marine, Inc. at Fort Blenville, in Hancock County has delivered the Tide Mar 34, a 10,500 barrel capacity tank barge, to Tidewater Marine Service, Inc. of New Orleans, La. The barge measures 160 feet long, 42 feet wide, 12 feet deep, and is scheduled for service in Trinidad where it will be used for testing oil lifted from wells in that country, Bergeron officials said.

Special features of the Tide Mar 34 include nine cargo tanks, a Roper positive displacement cargo pump powered by a Detroit Diesel engine, two Skagit mooring winches and a closed gauging and venting system. The barge also has a wooden fendering system along each side for greater hull protection, an operator's house and an electrical generating system for night operation lighting. The Tide Mar 34 was designed with the main cargo

pump and engine below deck. This, combined with a 1,000 pound per square foot allowable deck load, allows the vessel to be used for the carriage of deck cargo, in addition to fluids. It is classed by the American Bureau of Shipping and certified by the United States Coast Guard for ocean service. Bergeron Marine, Inc. is a subsidiary of Bergeron Industries, Inc. of St. Bernard, La.

Dear Friends:

Because of the importance of the subject and the promises being given to it at the present time, this entire Report will be devoted to the Social Security program and matters related to it.

The importance of this program to our workers and the economy is shown by the fact that during 1964, 115 million workers paid Social Security payroll taxes. Monthly Social Security benefits were being paid to 30 million beneficiaries at the end of 1964.

The Social Security program was originally established in 1935, and since that time it has grown to become one of the most important parts of our government's social insurance system.

As originally passed by the Congress, the Social Security system only provided cash benefits for retired workers.

This system, amended in 1939 to include survivors and dependents, is known as old-age and survivors insurance.

In 1950 the Disability Insurance program was established, which pays monthly cash benefits after a worker becomes disabled, and in 1955 Congress enacted the Medicare program under which aged and disabled workers are eligible for hospital insurance.

This Report is primarily directed to the old-age and survivors insurance program, which is the program paying monthly cash benefits after a worker retires or, to his surviving dependents when he dies.

It is important to understand that the Social Security system is financed exclusively from payroll taxes which were first collected in 1937. The payroll tax rate at the beginning of the program was 1 percent for each the employer and employee on the first \$3,000 of earnings.

The Social Security program stands on its own. Social Security funding is separate and apart from the other functions of the government. It consists solely of payroll taxes collected from employees and employers and the interest that money earns.

These Social Security funds do not go into the general fund, nor do the payment of Social Security benefits depend upon appropriations from the general fund.

bottom, and therefore does not contribute to, or increase or decrease the federal deficit. Social Security funds are not commingled with other government funds.

They are placed in three trust funds, these being the old-age and survivors insurance trust fund, the disability insurance trust fund, and the hospital insurance (or Medicare) trust fund.

The trust funds assets are invested primarily in government securities, and therefore earn interest which increases the amount available to pay benefits.

Not one red cent is used toward the general budget of the federal government.

In the last several years the cash balance of the old-age and survivors trust fund has dropped significantly, and this has raised questions as to the future solvency of the old-age and survivors insurance program.

There are a number of reasons for the relatively poor financial condition of this particular trust fund. In the first place, over the years the Congress has voted for cost of living and other Social Security increases benefits without increasing the Social Security taxes sufficiently to finance them.

I voted for some of these increases and against others.

The biggest step toward financial instability was taken in 1972 when the Congress enacted legislation providing for a 30 percent across-the-board increase in Social Security benefits and also provided a mechanism for an automatic increase in benefits whenever the cost of living rose more than 3 percent in a 12-month period.

Under the formula adopted in 1972, benefits are automatically adjusted by the cost-of-living index. Inflation has continued at a much higher rate than ever anticipated and the wages on which the benefits are computed have increased significantly.

The benefits paid to retirees have therefore greatly increased. In 1977, Congress passed a Social Security payroll tax increase bill which increased substantially both the percentage of the Social Security payroll tax increase bill which increased substantially both the percentage of the Social

Security payroll taxes and also maximum salary amounts subject to Social Security payroll deductions on which they were paid. Since I was greatly concerned about the soundness and survival of the system without these increases, I voted for it.

My vote for these additional Social Security payroll taxes was based upon the conviction that they were necessary to keep the system from going broke and because we were assured by the economists that the increases would put the old-age and survivors insurance trust fund on a sound fiscal basis until at least the year 2032.

We are now being told, only four years later, that problems again exist with respect to the financial soundness of the old-age and survivors insurance trust fund.

The reasons for this are that economic conditions have been much worse than were predicted in 1977, unemployment rose sharply, thus reducing the payments into the fund, and inflation soared even more sharply, resulting in increases in retirement benefits greatly in excess of what had been anticipated.

This indicated the possibility of future financial problems for the system.

However, most of the predictions of financial disaster for the Social Security old-age and survivors insurance fund are, in my judgment, based on the worst possible case. I am convinced in my own mind that the Social Security system can and will survive and that Congress will take whatever action is necessary to insure that present and future retirees receive the benefits to which they are entitled.

The predicted upswing in the economy would result in increased employment and decreased inflation and have a substantial beneficial effect on the Social Security trust funds. Reducing the present high interest rate applicable throughout the economy will free funds for investment and increased productivity which would also benefit the Social Security program substantially.

If it becomes necessary, any shortage over the next several years in the old-age and survivors insurance trust fund can be solved by allowing that fund to borrow from the

disability insurance trust fund and the hospital insurance trust fund, both of which are in reasonably satisfactory condition at this time.

During the course of this year, I cosponsored an amendment which would require the administration, in addition to its other budget submissions to prepare and submit to the Congress special analyses which would separate the estimated revenue and expenditures of the Social Security trust funds, as originally intended from all other functions and activities of the government.

This amendment was adopted, and the Senate Committee on Finance will consider it as a part of its study of the overall Social Security system.

I pushed this amendment because I strongly believe that the Social Security funds must be continued as separate trust funds, earmarked solely for the payment of Social Security benefits. Social Security is not a welfare or giveaway program. It is financed by social security payroll taxes paid over the years by employers and employees for the benefit of the employees.

These funds belong to the employees, and we must do whatever is necessary to insure that every dollar in Social Security benefits promised the employee is in the trust fund to pay his Social Security when he retires. This is basic and fundamental in my mind, and will certainly continue to guide my future actions and votes relative to the Social Security program.

While the Social Security old-age and survivors insurance program does not pay benefits which would enable a person to live in luxury, Social Security is certainly well worth the money which the average worker pays into it.

For example, the average individual who has paid the maximum amount into the Social Security fund through his working years will recover his entire payments within a period of 18 months after retirement.

In addition, I am told that the figures show that a worker presently retiring at age 65, who had earned the average wage, subject to Social Security deductions since the age of 22, would have paid into the system, including accrued interest, the sum of \$11,470.

Based on his life expectancy, the value of his benefits at the time of his retirement would be \$64,000, or 5.5 times as much as he put in. If there is a dependent spouse, again based on their life expectancies, the value of their benefits at the time of retirement would be \$124,000, or 10.8 times as much as was paid in.

Under existing law, the maximum Social Security benefit that any individual retiree can draw is approximately \$24 per month.

the retiree had a spouse, this would increase to about \$41.12 per month. If there is a spouse and one or more dependent children (or two dependent children) then their monthly benefits would reach about \$1,300.

The real crunch in the Social Security system will probably come when the so-called crop of "war babies," who were born after 1945, begin to retire.

At the time they were born, there were 42 people working for every person then already receiving Social Security benefits. Now there are only about 3.2 people working for every person already receiving Social Security.

At the time the "War Babies" retire, there are only going to be about two people working for each Social Security retiree. The mathematics of this situation are not for me.

I am going to continue to devote my very best efforts to insuring that the Social Security system continues to be financially sound. I believe that this is entirely possible and that the forecasts of impending financial disaster which we have heard in recent months are overly pessimistic.

But, I shall continue to work to insure that the Social Security trust funds are maintained as such and kept separate and apart from other governmental funds and have sufficient funds to pay all Social Security benefits when they are due. I shall also continue to work with my fellow Senators to find both a short-term and a long-term solution to the Social Security financial problems.

The message which I want to leave is one of reassurance to those who are now receiving Social Security benefits and those who expect to receive them in the future. I simply do not believe that the Congress or the government will allow this vital and important program to collapse. One of the worst disasters which this country could have would be for the Social Security retirees to wake up some morning and find that their monthly checks had been discontinued.

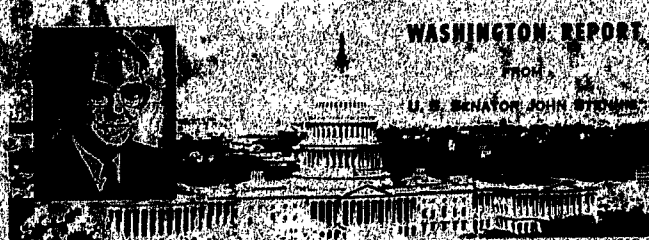

This must not be allowed to happen. We cannot be certain what may happen in the future after the passage of many many years, and the

population increases many times over the present 225 million. But I believe our Social Security fund is safe now and I shall continue to do the limit in keeping it on a trust fund basis and separate from other funds in the hands of the government. It is no part of the regular national budget and in my book none of the Social Security funds will be used in balancing the general budget—not one cent.

## Lott pushes for additional cuts in education, health

WASHINGTON—Despite bipartisan opposition and a cut of more than \$70 million, Republican Congressman Trent Lott of Mississippi's Fifth District, recently voted in favor of letting Congress make more reductions in key federal programs.

As part of the effort to cut federal spending, Lott voted for a bill which would reduce the federal budget by \$70 million over the next five years.

Lott, who represents the Fifth District of Mississippi, said he was voting for the bill because he believed it was necessary to reduce the federal deficit.

guidelines set by the preliminary budget resolution approved by the House last summer, which set guidelines for a 10 percent reduction in federal spending over the next five years.

Lott said he was voting for the bill because he believed it was necessary to reduce the federal deficit.

Lott said he was voting for the bill because he believed it was necessary to reduce the federal deficit.

After Lott's position was rejected, the bill was given final House approval.

# Rocks fumble away game to Vancleave, 14-13

By Randy Ponder  
St. Stanislaus finished the 1981 football season Friday night in Vancleave, losing a heart-breaking 14-13.

The Rocks turned the ball over 7 times, lost fumbles and interceptions.

Vancleave didn't do much better, having 4 turnovers of their own.

First-year head coach Fred Weem's troops took a 7-0 lead into the locker room at half-time and could have easily had at least another 7 points. Brad Lamey caught a 34-yard pass from quarterback Casey Wittmann on their first possession of the opening period to set up a 1st and goal for the Rocks at the Vancleave 1. The ball was mishandled on the next play and the Bulldogs recovered in their endzone to stop the threat.

John Killeen intercepted a Vancleave pass to set up the St. Stanislaus touchdown near the end of the second quarter.

With the ball on their own 32, Wittmann handed off to Sean Logan for 4 yards. On the following play, Wittmann pitched back to Joe Gex and Gex found Pat Kergosien with a 31-yard pass down to the Bulldog 33.

Logan did the rest of the work, carrying a straight line with the last being a 13-yard TD run. John Dunham added the PAT.

St. Stanislaus got the ball right back when a Bulldog snap was dropped and the Rocks covered on the Vancleave 20.

An interception in the endzone prevented the Rocks from capitalizing on this excellent scoring opportunity.

Vancleave scored first in the second half to knot the game at 7-7. The Bulldogs drove 50 yards for the TD following a 1st and 10 in the middle.

John Dunham blocked a fieldgoal attempt of Vancleave to start the Rocks on their way to a go-ahead score.

The kick that Dunham blocked with his belly was recovered on the Rock 14 and 7 plays later, a 1st and 10. The Bulldogs drove 30 yards and into the endzone. The point after touchdown was wide of the mark and the Rocks had to settle for a point lead with 4:05 left in the contest.

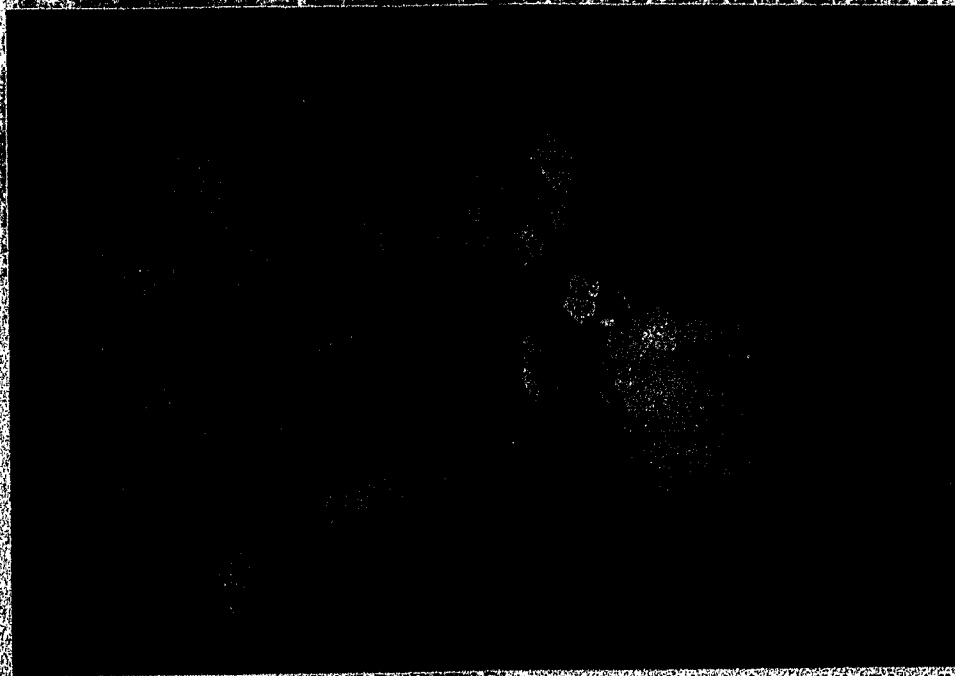

On the ensuing kickoff, the Bulldogs returned out to the Rock 49.

Vancleave had great field position but on the first play of the series, Brett Boudreaux intercepted a pass which appeared to be thrown directly to him.

Now it seemed the Rocks had the game wrapped up but another fumble gave the ball back to Vancleave on the Rock 27.

The Bulldogs scored on a ball that was fumbled into the endzone and jumped on by a Vancleave player. The PAT gave the Bulldogs a 14-13 come-from-behind win over the Rocks.

St. Stanislaus finished the season with a 5-4 mark after being favored by many to win the conference before the season started.

DOWN HE GOES: Joe Gex, number 10, and Mike Fender, number 41, combine on a tackle of the Vancleave quarterback.

## Nuclear Waste in Mississippi.

There is a lot of nuclear waste in Mississippi. It is a big problem and it is causing a lot of trouble. We need to do something about it. We need to make sure that the waste is handled properly and that it does not cause any harm to the environment or to the people of Mississippi.

Hawks kick to win hit crossbar

## Hawks

The Blue was successful on two of six pass attempts for 13 yards with one interception. Four Hawk punts averaged 37 yards while the Devils were forced to punt six times for a 32-yard average.

Both teams fumbled twice losing the ball each time.

The Hawks only lost 20 yards on three penalties, with PRC losing 60 yards on four calls.

Arment kept the Devil defense off balance with surprising aerial bombs and a surprising shotgun formation.

"We lost to a good ball club, and we feel they will be worthy representatives of our new conference in the playoff next week against Apacic Conference champion Poplarville," Favre said.

"We always strive for a winning season, because winning seasons breed suc-

cess, and losing seasons do not breed anything," he continued.

The coach said eight starting seniors this year turned in a "super effort."

They include: Otto Seal, Andy Rester, Jeffrey Ladner, Joey Morant, Brian Arment, Kent Deschamps, Rodney Neease and Robert Lyons.

"They performed a super job, stuck together, played together, some of them even played hurt," the coach noted.

Favre said he feels the Hawks retain the nucleus of a good ball club for next year, including Mark Santalla, quarterback who sustained a fractured ankle in the East Central game; backs Dennis Lacoste, the feathered bulldozer, and Lydell Curry, who was among conference scoring leaders this year, and

linebacker Mike Bluff, who was a defensive standout this year.

Also returning were the hawk's outstanding punter, Bobby Beech, halfback Rodney Rester to keep the Rester legacy alive on the squad, and Mickey Klum, already a mainstay at guard in the Hawk line.

"We try to maintain good junior varsity and junior high programs as well," the coach continued.

The Junior High Hawks with a 7-1 season compete this week in the Crab Bowl at Gulfview Elementary in Lakeshire.

Favre was also complimentary of his staff, including coaches Tim Favre, Rocky Gaudin and Joe Shaw, and trainer Neil Metheny.

A yard line to secure the first down.

Charlot carried the pignin to the Bearcat 10-yard line, which set in the Pirates game winning TD and conversion.

Long Beach attempted a drive to score in the remaining seconds in the game. But a fumble by Robinson was fumbled into the Pirates hands on the Pass 40-yard line by a crushing tackle.

The Pirate offense sat on the ball in the remaining 30 seconds of the game, ensuring their victory.

Bob Lumpkin, Pirate head coach, Saturday would not comment regarding the Friday night game.

Game statistics show the Pass with 14 first downs with the Bearcats earning 12.

But in rushing, Long Beach earned 200 yards to the Pass.

Pass Christian dominated passing gains with 158 yards compared to the Bearcats' 88.

The Pirates threw the ball 18 times, completed seven passes, and none were intercepted.

Long Beach passed nine times, completed four, and also did not throw an interception.

Both teams punted twice.

but the Bearcat's averaged 33 yards to the Pirates' 29.

Pass Christian only fumbled once, and retained ball possession. Long Beach fumbled twice and lost the pignin once.

The Pirates were penalized twice for 30 yards.

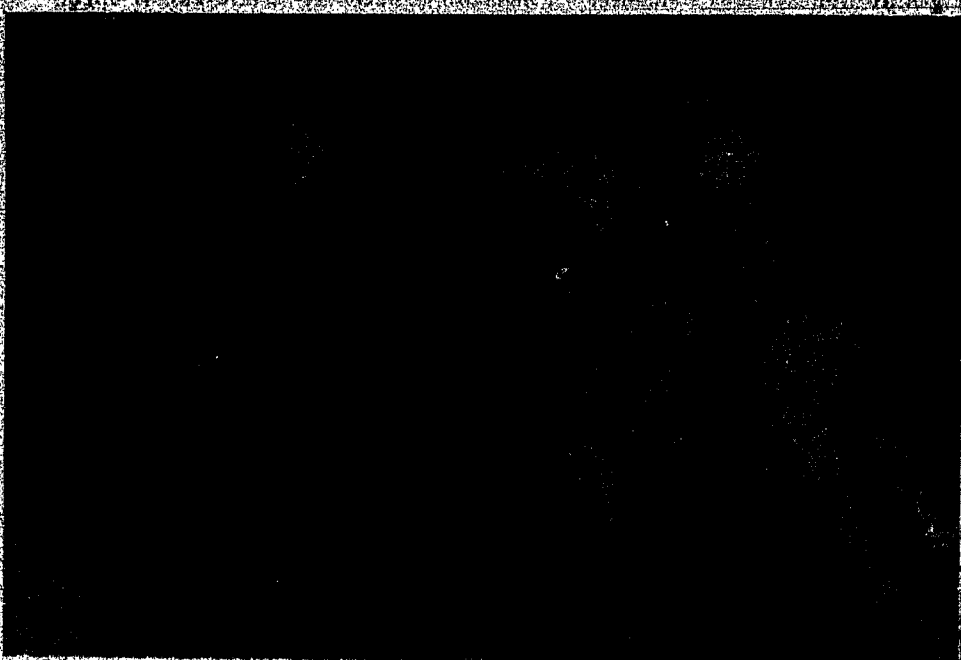

The Bearcats were penalized four times for 40 yards.

MMA DIRECTOR—William M. (Bill) Jones of Jackson, left, regional director of public affairs for the Masonite Corporation and newly-elected chairman and chief elective officer of the Mississippi Manufacturers Association, is shown with Russell Laddner, vice president of manufacturing for Moyle Star, Inc., of Poplarville and other plants in Mississippi, upon Laddner's election to the board of directors of the statewide association that represents industry in legislative and public affairs. Laddner will represent manufacturers and allied employers in District 27 of MMA, comprising Hancock, Lamar, Pearl River and Stone counties, during the current fiscal year. The new MMA director has been in his present position with Moyle Star for the past four years and has been with the company for 18 years.

## USM's Saturday gifted studies program expanded to grades 1-12

The Saturday Gifted Studies Program at the University of Southern Mississippi will offer courses for grades kindergarten through 12 this year for the first time.

The program, designed to meet the unique needs of gifted students, will be conducted by the Center for Gifted Studies, Jan. 23-March 13, 1985. Application deadline is Nov. 30.

Emphasis is placed on individual participation in areas which provide an in-depth analysis of specific topics of interest. Each participant will enroll in two courses for the appropriate age group except for grade 9-12 which will enroll in one course in computer science.

Students in kindergarten and first grade will enroll in "Think! Think!" in which thinking skills will be developed with emphasis on critical and logical thinking and in an art appreciation program entitled "Please, Who?"

Second and third graders will journey through the history of language from cave drawings to the present in "What Did You Say?" as well as studying the many forms of energy in "Power of the Universe."

Students in grades 4-6 will investigate historical events and place themselves in the role of the historian in "History's Everywhere."

In "I am a Creative Scientist," students will assume the role of scientists and solve basic scientific problems to solve problem situations.

Fourth and fifth graders will study the lives of great men and women in "Great Men and Women."

Sixth and seventh graders will study the lives of great men and women in "Great Men and Women."

Eighth and ninth graders will study the lives of great men and women in "Great Men and Women."

Tenth and eleventh graders will study the lives of great men and women in "Great Men and Women."

## Mitchell, Peterman exchange vows

St. Clare's Catholic Church in Waveland formed the setting for the October 17 exchange of vows between Jan Catherine Peterman and Keith E. Mitchell.

The bride is the daughter of Mr. and Mrs. Frederick J. Peterman Jr. of Waveland. The groom's parents are Patricia Kingston of Bay St. Louis and Gene Mitchell of Waveland.

Rev. Henry McInerney officiated at the 2 p.m. double ring ceremony. Scripture readings were rendered by Katrina Karsanae and Raymond Tipton.

The church was decorated with standing basket arrangements of white gladioli, caryanthemums and

pink and white carnations. Musical music was provided by Pat Hill and Carolyn Moore of Marrero, La., cousin of the bride.

Given in marriage by her father, the bride wore a formal gown fashioned with fitted bodice of richly beaded lace and sheer yoke of English net. The tiny collar and long fitted sleeves of Scholastic lace were embellished with pearls. Her Scholastic and bodice skirt flowed to a capel length train and featured a scalloped hemline above a crystal pleated chiffon nosegay. Her fingering veil of illusion was held in place by a Juliet cap of beaded Alencon lace.

She carried a cascade of white roses and rose foliage. Mrs. Donna French of Pass Christian attended her sister as matron of honor.

Bridesmaids were Lauri Newkirk, Mary Jo DiSalvo and Debbie Ruhl, all of Waveland; Melanie Peterman, sister of the bride; Anne Seltzer of Bay St. Louis; Janet Tipton of Jackson; and Sally Niven of Gretna, La., cousin of the bride.

The attendants were identically attired in formal gowns of white tulle taffeta with puffed sleeves and sweetheart necklines. A cumberbund type sash was at the fitted waistline. The bride's fitted waistline was emphasized to the left with a bow above a gently gathered skirt.

They carried nosegays of miniature carnations and pink sweetheart roses with baby's

breath and wore hairpieces of pink sweetheart roses and baby's breath.

Dana Peterman of Waveland, sister of the bride, and Shannon Mitchell, sister of the groom, were junior bridesmaids. Flower girl was Wendy Kingston of Waveland, cousin of the groom.

They wore ivory moire taffeta gowns styled with sweetheart necklines and accented with a wide colored sash at the waist.

Ricky Pavre of Bay St. Louis was best man.

Groomsmen were Bennie French III of Pass Christian; Lucien Shaw of Waveland; Charles Boudreaux of New Orleans; Tad Black, Truman Schultz, Mike Gibbons and Jim Amentall, all of Waveland.

Ushers were Jeff Lerville of Harvey, La., cousin of the bride; Monte Elches and Mike Richardson of Bay St.

Louis. Ring bearers were cousins of the bride Kurt and Kyle Balkum of Gretna, La.

A reception followed the ceremony at the home of the bride's parents.

Tables were skirted with white cloths and decorated with arrangements of pink and white blossoms. Small pots of wine caryanthemums decorated guest tables in the garden and several arrangements in the bride's chosen colors floated in the pool.

The bride's table held a four-tiered wedding cake adorned with pink and white flowers at the base. Silver candelabra flanked the cake on either side.

On return from a wedding trip to the Smoky Mountains and the Great Lakes region, the couple will reside in Waveland.

## Ladners celebrate golden anniversary

Mr. and Mrs. Robert (Rob) Ladner of Lakeshore celebrated their 50th wedding anniversary with a renewal of vows at the BaySide Park home of Mr. and Mrs. John Miller, a niece of Mrs. Ladner's.

The couple was married October 21, 1931.

Rev. Lambert Stacks, pastor of St. Ann's Catholic Church

officiated at the ceremony. Attendants were Mrs. Ethel Ladner of Clermont Harbor, who acted as maid of honor for the couple 50 years ago, and Jordan (Dedie) Johnson, brother of the bride. Mr. Johnson took the place of the late John Zengarling.

Approximately 150 guests attended.

## N. O. ceremony unites Cooper, Goetz

Cheryl Ann Goetz became the bride of Ken Allen Cooper in a 2 p.m. ceremony October 17 at St. Anthony of Padua Catholic Church in New Orleans.

The bride is the daughter of Mrs. Barbara Dufrene Goetz of Waveland and Richard Joseph Goetz of New Orleans. The groom's parents are Mr. and Mrs. E. Leon Cooper of Albuquerque, N.M.

Rev. Justin Kauchak celebrated a Nuptial Mass and officiated at the double ring ceremony.

The church was decorated with baskets of lavender and white gladioli, spider mums and carnations.

Musical selections were provided by George Smith of New Orleans.

Given in marriage by her father, the bride wore a formal gown of white jersey fashioned with fitted bodice trimmed with wedge wood lace and full chiffon tulle

sleeves. Her Anne's pleated skirt was edged in velvet lace and extended to a chapel length train.

She carried a cascade of white silk roses, carnations and baby's breath with lavender blossom highlights attached in a chivalry lace fan.

Kim Debenport of Waveland attended the bride as matron of honor. Maid of honor was Beth Goetz of Waveland, sister of the bride.

Bridesmaids were Carolyn Warr of Kenner; Sandra Shumilo of Denver; Col. Sharon McPherson and Nancie Goodwin, both of Dallas, Tex.; and Jan Hines of Albuquerque, N.M., sister of the groom.

Attendants were Marjorie Goetz of New Orleans, sister of the bride, and Jennifer Debenport of Waveland.

The attendants were attired in formal gowns of mauve knit with mauve chiffon jackets

and bishop sleeves. They carried nosegays of lavender and white silk carnations interspersed with lavender blossoms and baby's breath with lavender ribbon streamers. All flowers were designed by Marilyn Mitchell, aunt of the bride.

Wayne Brunner of Beaumont, Tex., was best man.

Groomsmen were Wallace Price of Albuquerque, brother-in-law of the groom; Jay Huddleston of Kenner, La.; George P. Goetz, Randall Goetz, Val Goetz and Richard

Goetz Jr., all brothers of the bride of Waveland. Ushers were Donald Mitchell of Kenner, cousin of the bride, and Robert Byrd of St. Rose, La.

Ivan Price of Albuquerque, nephew of the groom, was ring bearer.

The mother of the bride chose for the occasion a pale pink and lavender crepe chiffon street length dress with silver accessories.

The groom's mother was attired in a grape colored knit ensemble with matching accessories.

A reception followed the ceremony at the Ball Hall in New Orleans.

Decorations in a Polynesian theme included arrangements of lavender and white gladioli, spider mums and carnations. A lavender azalea tree decorated the cake table.

For traveling to San Marcos, New Braunfels and Houston, Tex., the bride chose a wine colored brushed corduroy ensemble with matching accessories.

The couple will reside at 5136 7th Street, Port Arthur, Tex.

## DIAMONDHEAD COMMUNITY CHURCH

Artist's rendering of Diamondhead Community Church

## Dedication planned at Diamondhead Community Church

By JOE FILET  
Dr. Richard Summers of Gulfport will preside Sunday Nov. 15 at 4 p.m. at dedication ceremonies for the Diamondhead Community Church, adjacent to the Diamondhead Sales Lodge.

The church, ecumenical in membership, had its beginning on April 27, 1980 as a mission of the Presbyterian

Church, and was under the supervision of the Reverend Dwyne Moulner.

The Presbytery of South Mississippi contributed substantially toward purchasing the building site and to the cost of erecting the church.

Approximately \$120,000 is the current estimated value of the building.

Fred Roseman, a contractor, together with his committee members Cile Grice, Tom Golding and Tom Rawls, have been recognized for their outstanding work.

Also recognized are members of the Steering Committee, including Luther Grice, Harold Marshall, Fred Roseman and Robert Simon.

The Campaign Committee includes Harold Swartzendruber, Mimi Feilich, Mark Jumper and Fred Roseman.

"Ask and ye shall receive, seek and ye shall find, knock and it shall be opened unto you," quoted the Reverend Moulner who said through faith the small congregation was able to erect and equip the church in a brief 16 months.

"We are few in number, but we are rich in the promises of God," Moulner said.

Following Dr. Summers' address, charter members and affiliated members of the ecumenical church will be constituted, church officials will be elected and special music will be provided.

"A warm welcome awaits all who wish to attend these services," committee members said.

### Baptisms

**INDIFFERENT STROKES**  
In a small town corner cafe, not long ago several farmers had gathered for their usual morning ritual of downing a few scrambled eggs, strips of crisp bacon, and coffee over conversation which ran from wishful thinking about prices of farm crops to the latest weather reports.

Suddenly the door opened and in walked an elderly lady wearing big overalls, a straw hat, and an airy glance over the room as she sat down. The

The artichoke, that marvelous edible thistle, is one of my favorite foods. Simply washed and eaten hot with butter, or cold with vinaigrette sauce, at times elaborately stuffed with seafood or ham or combined in a gourmet style casserole.

Actually a member of the sunflower family, the artichoke was known centuries ago to the people of the Mediterranean and the Near East and has been cultivated in France for centuries.

Artichokes were among the first plantings made in the United States (before it was the United States) by French settlers in Louisiana and by the Spanish settlers in California.

Artichokes make fine additions to the appetizer tray, especially in the form of bite-size artichoke balls which always disappear swiftly, as they are they. So here's:

**ARTICHOKE BALLS**

1 large can of artichoke hearts (8 to 12) in brine  
1 cup seasoned bread crumbs (Italian)  
2 eggs  
1 garlic clove, minced  
1 tablespoon olive oil  
2 tablespoons Parmesan cheese, grated  
Cayenne pepper, dash of hot sauce to your taste

Drain artichoke hearts, chop well and mash. Your fingers are best for mixing it all together. Incidentally, add the bread crumbs, beaten eggs and cheese, mixing well together.

Saute the minced garlic in the oil on a slow fire in a heavy skillet, then add the artichoke mixture and cook for about five minutes, stirring the whole.

Refrigerate the whole mixture several hours or overnight. Roll into bite-size balls, coat with additional Parmesan cheese and bread crumbs mixed together. Serve with or without cocktail picks.

Sometimes, when I feel like being fancy, I use additional artichoke hearts and stuff the mixture into them. One of my friends tells me that, when I gave her the recipe, she briefly tasted the balls under the broiler before serving.

The mixture can also be spooned into pastry cups or tiny bread cases, used to stuff cherry tomatoes or cherry peppers for the hors d'oeuvre tray. I sometimes serve the mixture as a hot casserole, or as a base for ham or chicken slices. It's quite versatile! (Makes about 30)

## McDonalds showing at Pass Library

Gerald McDonald and his niece Phyllis McDonald are displaying their paintings at the Pass Christian Public Library through November.

Gerald McDonald began taking art lessons with Jessie Ghore of Pineville, Mississippi.

He is a member of the Gulf Coast Art Association and has shown some of his work in the Harrison County Library in Gulfport, the G. Henry's Store in Biloxi and at the Edgeville Mall in Biloxi.

He is presently employed by Harrison County, where he is an office manager for Real Estate Supervisor Billy McDonald.

Phyllis McDonald is a native of Pass Christian. After graduation from Pass High in 1965, she attended Millsaps College, where she received her first formal art instruction from Karl Wolfe. She had also spent a year studying drawing and design at the University of Southern Mississippi.

She also studied under Jessie Ghore.

## U.S. Jaycees list outstanding awards

The board of advisors for the Outstanding Young Men of America Awards Program reports that Joseph Neale and Aaron D. Adams, both of Bay St. Louis, and Hubert Leslie Stevenson of Pass Christian have been selected for inclusion in the 1981 edition of Outstanding Young Men of America.

These men were selected from nominations received from senators, congressmen, governors, mayors, state legislators, university and college presidents and deans as well as various civic groups, including the United States Jaycees, which also endorses the program.

The criteria for selection includes a man's voluntary service to community, professional, leadership, academic, achievement, business, advancement, cultural accomplishments and civic and political participation.

The men listed will be featured in an annual awards publication.
